

A Story About Wet Dreams

Sometimes I get an erection at night when I sleep.

A little sticky liquid called semen may come out.

My sheets and underwear will feel wet.

I did not pee in the bed. The wet spots are semen.

This is called a wet dream.

Wet dreams are common and happen to all young men.

I can wipe my penis clean.

I can change my clothes.

I will put my wet clothes and sheets in the laundry.

I can ask mom or dad for help.

If I have any questions, I can talk to mom or dad.
